Hello! My name is Mark and I'm writing my blog for nature fans. I think that animals are great. I often go to the forest. I love watching birds there. I think that almost all animals are happy only when they are free. I sometimes go to zoos, but I feel sorry for big animals in their small homes. I'm also very sad when I see birds in cages. Safari parks are better because animals have more space in them. In the future, I'm going to visit some safari parks and take interesting pictures of animals there.
